

Climate Ready Forth Valley: Local Knowledge and Lived Experience Event Fund

Guidance notes

Overview

The *Climate Ready Forth Valley: Local Knowledge and Lived Experience Fund* ('the Fund') is a grant fund distributed by FEL Scotland on behalf of Scottish Government.

Its objective is to enable community groups to contribute their stories of local climate impacts and adaptation based on their local knowledge, lived experience and community values, to help shape future Climate Ready panning.

The Fund aims to cover the costs of eligible community groups who organise, host and promote events that bring their communities together to share what climate impact and adaptation means to them, locally. In addition to funding, FEL Scotland will provide groups with a resource pack and support from our team.

Collected stories and experiences will be anonymised and used to support future understanding of how climate adaptation planning can prioritise key issues, positively address challenges and better support people and places across the region in a fair and just way.

About the Fund

Offers of funding and amounts will be made at FEL's discretion. As a guide £225 will be offered to groups hosting up to 15 people, per event. However, groups are encouraged to let us know, using the EOI, how much they require to cover the costs of putting on their events, even if more than £225.

Applicants will be notified of the outcome of their EOI within 5 business days of all information and any clarification.

The applicant host will be responsible for

- Organising and hosting the event
- Ensuring a nominated note taker accurately records key themes and points
- Completing the online report form and submitting it by the deadline

Key dates

- Midday, 12 March 2026 – Fund closes
- 5pm, 16 March 2026 - Deadline for submitting completed online forms to FEL
